Over 200 residents have been mentored

400 MONEY EDUCATION
WORKSHOPS

Residents gained knowledge of welfare reforms, money management, savings and local support services.

100% of our freelance trainers are beneficiaries

CASE STUDY

Pamela is a volunteer with a charity supporting people affected by domestic violence. She has a number of physical health issues. When she came on our Money Champions Training, she had a payday loan debt.

Our training helped her to understand how to manage her debt issue and seek available local support. She has now reduced this debt and has a payment plan in place. She is also on the frontline talking to families in the community, as well as within the charity she volunteers for, helping many of whom are struggling with financial issues. Our training has meant that she has the skills and resources to help people face their financial difficulties and refer them to appropriate support. She says, "I'm giving out cards weekly to parents and families wanting, money tips "Boosting Income and Taking Control" and "Dealing with Priority Debt" are the most popular cards"
